

WGI 601 Series Brass Ball Valves

WGI 601 series brass ball valves "excel" in many different industries including hvac, agricultural, irrigation, hydraulics, and hot water heating systems. WGI 601 series brass ball valves are installed where a quality valve is required.

Specifications

Sizes

1/4" through 4" NPT

Porting

Full port

Body Material

Cast brass

Ball Material

Chrome plated brass

Seat Material

Teflon®

Stem Packing

Teflon®

Pressure Rating

600 psi WOG / 150 psi working steam pressure

Temperature Rating

-20° to 300°F (-20 to 150°C) WOG

Options

Optional solder by solder ends (special order)

601-1/2
